Summary

Hello, I am **Fardin Hassan**, a passionate **Full Stack Web & Mobile Application Developer** and **UI/UX Designer** dedicated to turning real-world problems into seamless digital solutions. Currently pursuing my studies at **Daffodil Polytechnic Institute**, I focus on building intuitive, scalable, and user-friendly applications that create a real impact. My journey in technology is driven by consistency, curiosity, and a commitment to excellence. I specialize in developing modern, high-performance web applications using **React.js** and **Next.js**, as well as building fully responsive, scalable mobile applications using **Flutter** with clean architecture.
